[Jewett Farms](#)

Jewett Farms + Co. craftsmanship and personalized sense of design are present in everything we create; our architectural millwork and furniture grade cabinetry will make every room in your home special. The team of skilled JF cabinetmakers build every project from start to finish in our York, Maine cabinet shop. All materials are hand selected, then constructed using a blend of time-honored traditional joinery and efficient modern techniques to build each individual element with care and accuracy.

Whether you're zooming a virtual happy hour with friends, or simply celebrating the end of another homeschool/work from home week. I guarantee your happy hour has room for improvement. Let's take a peek at some of our favorite home bar areas.
