

Courbe Nero

[Discover Tile, LLC](#)

Winner of Interior Design's 2019 Best of Year awards. This sleek dimensional tile reflects a design approach that mixes natural materials with outstanding artisanal details. Inlaid brass lines curve gracefully through the summit of an intricate, handcarved ridge that flows across the surface and from one tile to the next. The artist's tooling is evident in the texture of each tile, the carvings revealing the richness of the stone base beneath. This is a sumptuous take on stone tile - a modern, mixed-material composition born from ancient traditions of stone-carving fused with modern sensibilities in style. Individual pieces may be installed in a straight or a broken joint layout, each creating a different undulation of pattern. Available as a 12"x24".
