

Uinta Saffron

[Merida](#)

We are continually looking for new ways to create value for our design clients, with rugs of true originality that will bring joy to your clients for years to come. And in a world that is increasingly denigrated by disposable products, we are more committed than ever to bringing the focus back to the deep beauty of natural materials that are smart for the environment (and safe for the home); the soulfulness of true craftsmanship; and the uplifting spirit of design.

ATELIER

UINTA 219 - SAFFRON

Part of the Atelier collection, Uinta is inspired by blocks, with larger blocks of pattern forming the weave.

- Lead time may be increased due to production demand. For current lead times, please contact your Merida representative.

- Natural fibers reflect slight variations in color, so samples may vary slightly from the finished rug you receive. The resulting imperfection gives the rug its unique character.

Fiber: 82% Wool | 18% Cotton

Backing: Cotton

Max Width: 11' 06"
